Art Unit: 2183

1. Claims 1-9 and 15-31 are presented for examination.
2. 37 CFR § 1.98(b)(4) reads as follows:

(4) Each foreign patent or published foreign patent application listed in an information disclosure statement must be identified by the country or patent office which issued the patent or published the application, an appropriate document number, and the publication date indicated on the patent or published application.
3. Applicant's information disclosure statement filed April 15, 2009 lists two foreign patent documents but fails to identify those documents by "the publication date indicated on the patent or published application". Therefore these two citations are not in compliance with 37 CFR § 1.98 and have not been considered.
4. 35 USC § 101 reads as follows:

"Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter or any new and useful improvement thereof, may obtain a patent therefore, subject to the conditions and requirements of this title".
5. Claims 28-31 are rejected under 35 USC § 101 because the claimed method, contained upon a medium, is not positively recited as tied to a particular machine or apparatus as decided by the court in *In re Bilski*.
6. Claim 28 claims a medium containing instructions that if executed, cause a system to perform a method. By claiming the instructions in the form of if executed, the claim does not positively require execution, and accordingly fails to positively tie the claim to a particular machine or apparatus as decided by the court in *In re Bilski*.
7. Claims 1-9 and 15-27 are allowable over the prior art of record. Claims 28-31 are allowable over the prior art of record but are rejected above as directed to non-statutory subject matter.
8. A shortened statutory period for response to this action is set to expire 3 (three) months and 0 (zero) days from the mail date of this letter. Failure to respond within the period for response will result in **ABANDONMENT** of the application (see 35 USC 133, MPEP 710.02, 710.02(b)).
9. Any inquiry concerning this communication or earlier communications from the
